

Cloud ST - Layers

To begin:

You will be fully dressed in a Base Layer plus three additional layers of clothing (tops and bottoms).

You will also be wearing a hat and shoes with socks.

You will be carrying a large tote bag with a pair of sandals inside. Throughout, your demeanor and pace will be cool, calm, collected, casual.

Distribute the below actions equally as you travel down the length of the street.

The time of day matters not.

01. Start at one end of the street.

02. Walk until the spirit moves you to pause.

03. Take off your HAT with an inhalation of breath. Put it in your bag with an exhalation of breath.

Reports:

Annie:

I had the impression that I was telling a story without a beginning or an end.

No one paid any attention to it, as if it were perfectly normal for someone to undress in the street.

I imagined that it was warm (which it wasn't), which made it easy for me to perform. It was a nice feeling, slightly crazy for a brief moment.
