

## Jonathon Keats - Century Camera 2020-2120

'I would propose that we mark the spot with a handwritten sign on ordinary paper reading "Future Location of a Century Camera 2020-2120". The sign should be taped to the wall. It should be small and unremarkable, and allowed to fall off in the rain or the wind. When the materials arrive, you can make and place the camera. At the festival in the year 2120, you (or your heirs) can tape the photograph in the same spot as the sign'.
